

FINEST FINISH

COMMERCIAL QUARTZ SERIES®

Color. Texture. Today.

WHITE

ULTRA BLUE

Finest Finish® COMMERCIAL QUARTZ Series is a mix of 50% quartz and 50% ultra white marble sand blend mixed with Universal White pozzolanic patented cement and polymer additives for a finish that is both stunning and durable.

ULTRA BLUE is richly formulated with 20% blue colored quartz aggregate for an opulent blue water color. Smooth and elegant, this finish will provide lasting beauty for years to come.

Both high performance finishes are well suited for commercial-grade projects or a backyard oasis.

The Commercial Quartz Series has undergone the ASTM PSI test and results after only 28 days were at 9550 PSI. This finish is resistant to acidic water, lasts longer than conventional finishes, and is easier to maintain.

WHITE

- Pre-Blended Formula provides industry leading strength and durability.
- Finest Finish Blends™ products are crafted using only the highest quality of sourced raw materials located by Universal White Cement™.
- Finest Finish Blends™ uses our patented Universal White Cement™ pozzolanic-enhanced cement in each formulation.
- Highest Quality assured pigments are being used in each formulation.
- Peace of mind provided by our comprehensive warranty.

Actual aggregate size, color and texture can vary from samples and photos to finished pool.

Due to the constant changes and variables such as the angle of the sun, sky and water clarity, pool depth and surrounding reflections of hardscape and landscape, expect your pool water color to change throughout the day. No two pools will reflect the same. Exact pool water color reflection is commodity that cannot be guaranteed.
